<b>Themes/Trends in the Data</b>												
Mental health came up in several ways over several questions: mental health issues over the bell change, mental health concerns over changes in counselors, mental health issues overall, phone/barricades impact on mental health												
Math program comments are more than just "bad" program but the increase cost it causes on families for tutors or additional or remedial math classes in college												
Multiples responses feel sports or football take priority in announcements and associated activities take second place; responses ask for all sports and all activities/clubs to also have announcements and the same school attention												
Focus on more than just sports: arts, music, theatre												
Too many off periods												
Start the school day later												
For just about every "bad communication" comment, there is a "good" communication comment												
People want the newsletter in the body of the email and not a link												
Comments about political views of staff/teachers, biases of teachers, opinions of teachers being shared, politics: Overall parents did not like it when view/politics/beliefs by the adults were shared with the students												
Trend of comments that there needs to be more inclusion for all students in all grades. In addition, to have more fun activities for other high school levels and not just the seniors
